Legion Members Favorable To Covered Skating Rink

There was a good attendance at the regular meeting of the Didsbury Branch of the Canadian Legion held last Wednesday night, and the meeting opened with the president, Comrade Payne, in the chair.

Comrade Gilson presented the financial and membership reports. The president reported on a joint meeting of the executive committees of the Lions Club and the Legion at which a common project was discussed. The Legion has been collecting money for a memorial hall and the Lions Club has been sponsoring a swimming pool project, both as units in a community centre. However, as both organizations are short on their funds it had been suggested that they combine their efforts into one project and a covered skating rink was suggested. The Legion Executive Committee had thus brought back the suggestion to be decided at a regular meeting.

The whole project was thoroughly discussed and it was moved that the Legion erect a memorial in the form of a community hall and that ways and means of raising more money be found. This motion was defeated, as was another motion to table the issue for two months, owing to the shortage of some building materials.

A motion was made to contact the War Charities Act, under which the Legion raised most of the money on hand, and get permission to change the project, and also that a refund be made to anyone who

donated to a hall and do not wish their donation used for any other purpose, thus enabling the Legion to get at least one unit of the community centre under way. This motion was carried.

As the Legion is sponsoring the Westcott Boy Scouts Troop Comrade Freeman suggested that a Scout flag be purchased for the Westcott boys and that the Legion members go out and make the presentation. A motion to this effect was passed and at a later date it is hoped to visit the Westcott Scout Troop and present them with a flag.

The transfer of Comrade Trev Evans was received from the Troop branch.

Lunch was served by the Ladies' Auxiliary and greatly enjoyed by all.

The next Legion meeting will be held on March 29th. A big turnout is expected and president Comrade Payne asks every member to bring a new recruit, as there is a large number of returned men who do not attend.

TOWN COUNCIL TO APPOINT M.H.O. AND DEPT. A CORONER

Mayor H. Lynch-Staunton and Councillors Reiber, Cathness, Parsons, Gilson and Kimmel were present at the regular meeting of the Town Council on Monday night, when several applicants applied for the purchase of town building lots, but no definite arrangements were made for purchase.

Since the death of Dr. J.L. Clarke the town has been without the services of a Medical Health Officer and a Coroner, and Council decided to have these appointments made immediately.

The 1947 requisitions were received from the Didsbury School Board and the Town of Didsbury for the purchase of town building lots for schools in 1947, an increase of approximately \$3,000 over last year.

One old age pension application was approved.

The secretary was instructed to place an order for four "Foamite" fire extinguishers, to be placed at convenient places in town, and to be used as an emergency in case of small fires.

IMMIGRANT FARMERS TO BE ADMITTED

The Canadian government has announced that agricultural workers will be permitted to enter Canada if coming to a father, a father-in-law, a son, a son-in-law, a brother, a brother-in-law, uncle or nephew, engaged in agriculture. In every case farming must be the principal occupation of the resident relative, who must also be in a position to receive the immigrant and to establish him on a farm.

Farm laborers will also be permitted to enter Canada to engage in assured farm employment.

SPECIAL WEDDING DRESS FOR W.A.A.F. IN GERMANY

Members of Britain's W. A. A. F. who decide to be married while serving in Germany—there have already been a considerable number—will have the use of a specially designed wedding gown. In white satin, it has a draped hem and can be altered to fit almost any figure. A tulle veil goes with the gown.

JEAN McDONALD HONORED ON 21ST BIRTHDAY

A large crowd of friends and neighbors gathered at the home of Mr. and Mrs. J.R. McDonald on Friday evening to celebrate the twenty-first birthday of their daughter, Jean. The evening was spent in playing games and contests, after which a delightful lunch was served. A beautiful birthday cake with 21 candles centred the table. Jean received many beautiful gifts, among them a gold locket and chain from her parents, and Jean thanked her friends in a very pleasing manner. Everybody had a good time and returned home in the wee hours of the morning. Congratulations, Jean, from all your Didsbury friends.

LOCAL RED CROSS ANNUAL CAMPAIGN TO BE CONDUCTED

The Didsbury Branch of the Canadian Red Cross is commencing its drive for funds this week and plans are being made to canvass the town and district in a similar manner as was conducted last year.

The Red Cross needs \$500,000 to carry on its work in Canada and the only means of getting this money is by public subscription. The campaign is conducted only once a year and as a worthy cause should receive the support of everyone in this community.

Last year the Didsbury Red Cross drive was somewhat disappointing, but the local committee hopes for better support this year.

When the canvasser calls you are urged to donate as much as you can spare to this worthy cause. You can be sure your donation will be gratefully received and the money spent wisely for Red Cross work, such as outposts, hospitals, crippled children's hospitals, blood donor clinics and emergency and destitute relief.

WESTCOTT NEWS NOTES

Mrs. Linden Jacobsen finally got home Friday after being storm-bound in Didsbury for four days on her return from Calgary.

Mr. and Mrs. John Luft and daughter, Emma, were Calgary visitors last week.

All social events which had been planned in this community for the last week have had to be postponed because of the badly blocked roads.

The snow plow came through a couple of times during that time but with the continued snow and the mean snow the roads are still snow-bound. Even old Dobbin found it tough going. Many children too, were absent from classes at school, especially those who live on side roads. We're all hoping this is it—and that spring is just around the corner.

Mr. Lawrence Oliver of Chilliwaik, B.C. is now visiting with Mr. and Mrs. Linden Jacobsen.

Bernell Reinhardt and Douglas Schneidmiller returned on Saturday from their holiday in B.C.

We're all looking forward to seeing the mail man now that cars are getting through on the main road. I don't suppose anyone will be as pleased to see him as our local postmaster, Mr. Swanby, as there is quite an accumulation of outgoing mail marked in the store.

Mrs. Ruth Goelten was awakened Tuesday night by the ringing of the telephone and upon answering found the pleasure of conversing with both her sisters, Edna and Beatrice, of Port Alberni, B.C. The reception was very good and both girls wish to be remembered to all friends around Didsbury.

FISH AND GAME ASS'N MEETING MONDAY, MARCH 10

The annual meeting of the Didsbury Fish and Game Association will be held in the Lions Hall on Monday evening, March 10 at 8 p.m. Election of officers and other important business will be on the agenda.

MISCELLANEOUS SHOWER FOR MR. & MRS. NEUFELD

A group of young married couples held a surprise miscellaneous shower for Mr. and Mrs. Gordon Neufeld last Tuesday evening, February 25, at their home.

Everyone spent an enjoyable evening in the playing of games and contests. After a delicious luncheon, Mrs. Arthur Eby made the presentation of gifts, to which the young couple warmly responded.

Neufeld is a war bride, coming from Holland about two months ago. We extend to her a warm welcome to Didsbury and hope she will be very happy in her new home.

ACE ESLER AND DR. EPP WIN EVENTS IN LEGION BONSPIEL

The Legion bonspiel at the Didsbury curling rink last Wednesday afternoon was a real success and while many veterans signified their willingness to curl the number of rink had to be kept down to finish the bonspiel on schedule, and as a result only eight rinks were entered.

The Ace Esler rink won the event, in the main event, with the Dr. Epp rink winning the socks in the secondary competition.

Following are the results of the play:

L. Berchert won from C. Reiber, H. Gillette from Dr. Epp, A. Esler from Dr. Paul, J. Morton from F. Evans, L. Berchert from H. Gillette, A. Esler from J. Morton, Dr. Epp from C. Reiber, Dr. Paul from F. Evans, A. Esler from L. Berchert and Dr. Epp from Dr. Paul.

Personnel of rinks: L. Berchert, Trev Evans, George Youngs, Bruce Parker, A. Esler, Mel Wood, John Follen, Bert Huber, J. Morton, Wilf Skerry, John Worthington, Russell Carleton, Dr. Paul, Ken McCoy, Paul Brinton, "T" Worthington, Harvey Gillette, Jack Low, Bill Devolin, Jim Worral, Fred Evans, Joyce Morgan, O. Darling, Ross Fildes, Dr. Epp, Tom Persson, Jim Sinclair, Jack Garner, Harry Richardson, sub.

OPEN HOUSE AT MOUNTAIN VIEW BIBLE SCHOOL

On Friday evening a large number of interested friends called at M.V.B.S. on the occasion of "Open House." The hostess, Mrs. Hallman, received the guests, who were shown through the building by members of the staff and student body. A short musical program of piano selections and numbers by the girls' trio was given in the chapel, after which the guests were served tea in the dining room. Miss Helen Leonard convoked and Mrs. Peter Walden, Mrs. Ira Stauffer and Mrs. Lynn Hunsinger nutured tea, while Melva Anderson, Winnie Stewart, Ruth Witzke, Dorcas Snyder, Alberta Sykes, Reba Sevens and Margaret Decker served the guests.

SUPPORT THE RED CROSS

To Vote March 15th For Councillor In Division Four

MRS. McARTHUR ENTERTAINS KNOX UNITED CHURCH W.M.S.

On Monday evening, February 17th, the ladies of Knox United Church Women's Missionary Society met at the home of Mrs. Roy McArthur. Ten members were present and at the close of the meeting Mrs. McArthur served lunch. The next meeting will be held at the home on March 17th, at 8 p.m. Rev. D. Whyte Smith will give a talk on India.

15TH CAR LOAD OF FLOUR LEAVES DIDSBURY MONDAY FOR THE EXPORT MARKET

M. Weber, proprietor of Rosebud Flour Mills, reported Tuesday that they have just shipped out the fifteenth car load of flour since October 1st, destined for the export market. This is a large amount of flour when taking into consideration that each car contains 1000 sacks.

The flour shipped out Monday was consigned to Genoa, Italy, and previous orders went to China and other foreign countries.

The Rosebud Flour Mill is again running 24 hours a day to keep up with orders and at the same time supply the western market with the famous Rosebud Pancake Flour, which is manufactured in Didsbury.

15 INCHES OF SNOW AND TEMPERATURE 23 BELOW

During the past week about fifteen inches of fresh snow has fallen in this part of the province and while lack of wind has prevented drifting, many country roads are blocked and only the main roads have been open to traffic, due mainly to the constant work of the snow plowing crew. The temperature has been around zero at night with slight rises during the day and old man winter is still with us, despite the time of year when we are all looking forward to spring. Just to prove that winter is still with us a cold wave has spread over the whole province and temperatures dropped to 23 degrees below zero Monday night.

CHRISTMAS SEAL CAMPAIGN REACHES \$100,000 OBJECTIVE

The \$100,000 objective of the Alberta Tuberculosis Association was realized with a few dollars to spare, when the campaign closed recently. The total amount of money raised since the winter of 1942-43, when only \$23,000 was raised in the whole province, it heartens and encourages the officers to work harder and harder to defeat tuberculosis, when they know that the people of the province are so solidly behind them. Over 60,000 individual contributions made up the \$100,000 total.

U.K. STEEL OUTPUT NEAR PEACETIME RECORD

In 1946 the United Kingdom steel industry produced 12,693,000 tons, only 201,000 tons less than the peacetime record reached in 1937.

DIDSBURY HOSPITAL BIRTHS

Born, To Mr. and Mrs. W.B. Moon on Saturday, March 1, a son.

To Mr. and Mrs. W.B. Cochrane of Carleton Place, on Monday, March 3, a girl.

Saturday, March 15th is the date set for the election in Division 4 of the Municipal District of Mountain View and ratepayers in this division will have their choice of two candidates. The retiring representative and Reeve of the Municipality, A.L. Hogg, will be opposed by Mr. H.J. Goelten, and it is expected that a large vote will be polled providing roads are open on election day.

Four Polling Places will be open, and each ratepayer must vote at the poll set out for his or her particular Polling Division. For the benefit of ratepayers we list below the four Polling Divisions and the polling places.

Polling Division A—Consisting of West half of Township 31, Range 2, West of 5th Meridian, and all of Township 31, Range 3, West of 5th Meridian. Polling place at Melvin Hall.

Polling Division B—Consisting of all of Township 31, Range 4, West of 5th Meridian. Polling place at Byrt & Russell Store, Elkton.

Polling Division C—Consisting of all of Township 30, Range 3, West of 5th Meridian. Polling place at Cremona Hall, Cremona.

Polling Division D—Consisting of all of Township 30, Range 3, West of 5th Meridian, and West Half of Township 30, Range 2, West of 5th Meridian. Polling place at Jackson School.

KNOX JUNIOR W.A. MEETS AT TOM MORRIS HOME

Knox United Junior W.A. met at the home of Mrs. Tom Morris on February 24th, with eleven members and five visitors present.

Mrs. Walter McCoy was in charge of the devotional period. Plans were made to have the Easter bazaar and tea, to be held in the Lions Hall April 5th.

The next meeting will be held at the home of Mrs. Kimmel on March 23rd.

FIRST GAS TURBINE TANKER

A 12,000 ton ship, the "Auris," which will probably provide the first example of the marine use of gas turbines, is now under construction in Britain. The diesel engines are to be adapted to consume low-boiling fuel. The Auris also has the distinction of being the first diesel electric tanker to employ alternating current.

A. F. U. NOTES

There were 16 present at the February meeting of the Rugby A. F. U. held at the Chelver home. The members paid their respects to the late Mr. A.F. Cowitz by observing a two minute silence. Two resolutions were passed, one on the freight rate question and the other on the sharing of the cost of education. A whist drive was planned for March 10th at the home of Doug Housgood. The next meeting will be held at the home of Mrs. Annie Krebs on March 26th.

It has recently been announced by Hon. Jas. A. MacKinnon that the subsidy of 30¢ per bushel on domestic wheat has been removed. This example of the marine use of gas turbines, is now under construction in Britain. The diesel engines are to be adapted to consume low-boiling fuel. The Auris also has the distinction of being the first diesel electric tanker to employ alternating current.

Housewives To Pay More For All Top Quality Beef

Canadian housewives will now pay more for their beef through a price-increase allowed by the Prices Board. But at least they will stand better chance of getting what they're buying their favorite roast or steak.

The board announced Saturday that effective Monday consumers will pay a three to four-cent-a-pound increase on standard or primary retail cuts.

The wholesale price rise will amount to two cents a pound at wholesale, carcass basis. The boosts apply to the top qualities, red, blue and commercial grades of beef only. Prices on other qualities of beef remain unchanged.

The actual cutting price increases at retail: cubed sirloin tip; tenderloin—no advance in picking; Sirloin butt; strip loin; brisket point; rib roast rolled, seven bones; prime

rib roast, five bones, rolled; rolled rib roast, inside, sixth and seventh bone—advance four cents a pound. On all other cuts the price advance will be three cents a pound.

Board officials said the new price schedule represents the final adjustment in beef ceilings for the current season.

CHEVROLET ANNOUNCES ITS 1947 MODELS

Restyled for 1947 with the emphasis on a more massive front end and a smoother sweep to body contours, the new Chevrolet is announced. New front-end grille and

complimenting bright work, as well as elimination of the body belt moulding, have done much to give the new model an air of greater luxury. This year, the usual

shut-down for retooling was avoided and there was virtually no decrease in the rate of output when the new models went into production.

A Challenge To Agriculture

FOR SOME YEARS NOW Canadian farmers have worked to supply a market which has taken all and more than they could produce. Granaries and elevators have been emptied, and supplies of meat and dairy products have often gone short for the demand for them. All this was a great change from the years when large quantities of wheat were held over from season to season, and farmers were in some occasions induced to cut down acreage in order to avoid serious over-production. No one wishes these conditions to return, but there are many who wonder what will happen to the market for Canadian farm products when normal crops are again harvested throughout the world.

Answer Given
Many Times

The answer to this question has been given many times by agricultural experts and nutritionists both here and abroad. Even in what we consider to be normal times, these experts tell us that a great part of the world's population exists on a diet which is far below the minimum requirements for good health. If people everywhere were adequately fed, standards of health would be higher and this might go far to help in the solution of many of the problems of the present day. There is no doubt but that lack of food is an important cause of political unrest.

Real Need For
Wider Markets

Higher nutrition standards throughout the world would mean a steady demand for Canadian farm products and it has frequently been pointed out that Canadians have a real interest in developing wider markets abroad for the food which is grown here. It is not a simple matter to cultivate new and wider markets, for we cannot export unless we are also prepared to buy from other lands, which brings up the far-reaching question of increasing buying power in our own country. Dean Grant MacEwan of the University of Manitoba, speaking on this subject before a gathering in Winnipeg recently said that if we can stimulate world-wide interest in nutrition there cannot be any surplus of farm products. "The fact is," he declared, "there are not enough acres in the world to feed all the people properly." He added: "The potential markets are there. The challenge is to us to transform them from potential to real markets. And it is going to take a lot of educating to do it. This is a question to which we should be giving much thought and attention at this time."

KIND TO YOUR BUDGET
... EASY TO MAKE!

Beef Upside-Down Pie

1 1/2 cups flour
3 eggs, Magic Baking Powder
1 tsp. salt
1 tsp. celery salt
1/2 cup, white pepper
1/2 lb. shortening
1/2 cup milk, or half milk, half water
1 cup sliced onions
1 can condensed tomato soup
1 1/2 lb. ground raw beef
2 lbs. ground raw beef

Sift together flour, baking powder, 1/2 teaspoon salt, celery salt and pepper. Add 3 tablespoons shortening and mix in thoroughly with fork. Add milk and stir until blended. Melt remaining two tablespoons shortening in frying pan, and cook onions until brown. Add tomato soup, remaining 1/2 teaspoon salt and ground meat, bring to boil. Spread baking powder mixture on top of meat mass. Bake in hot oven at 475° F. for about 20 minutes. Turn out, upside-down on large plate, serves 8.

MADE IN CANADA

Here's A Way To
Get A House

ADELAIDE, Australia. A man in Adelaide advertised for a house, and got one. His advertisement read: "I am a beaut. I only work when there's no one I don't like gardening. If you must know I mean, my wife. I have a youngster, too, who will draw nice pictures on your walls. The little pet."

I put up with them because I love them. I'll go on living with them. "The question is where? Your green is as good as mine, but I'm not particular, as long as we are in our own."

The third of beatings up the ink-blot, so if you think your house can stand it, please ring E2294.

Next morning a man rang the number given and said: "Who are you, anyway?"

Given the information, the caller rang off with: "I was curious to know if you were fair dinkum. I think you must be nuts."

Five minutes later another man rang and offered a caravan at the seaside. The offer was declined.

Then after a third rang and said: "I have some sense of house-ness. I haven't got a house to offer, but I like your style and I'll do my best to find you one."

The fourth caller offered a new five-roomed house for a "man with imagination."

PROPERLY PUNISHED

The Ottawa Journal says in Montreal a truck-driver, warned by a passenger of a cyclist ahead, said: "Watch me give him a good fright." The truck struck the bicycle, killed the rider, and the driver now has three years in the penitentiary to think about it all. It is a fine place for smart alecks of that sort.

LARGE WAGONS

In the time of the emperor Kublai Khan, Mongolians had wagons so large that it required 22 oxen to pull them, and the space between the wheels measured 20 feet.

Canadians Survive
Fiery Train Wreck

Coach Al Murray, former N.H.L. player and mentor for Galt's Ontario hockey team, suffered burned hands in the wreck at Fresno, Calif., of the blazing train on which his San Francisco Shamrocks hockey team was travelling.

Among the purchasers who escaped injury in the Fresno train wreck was Sgt. Lawrence of New Toronto, seen here. He telephoned relatives to say he was unhurt. He played for Marlboro juniors of Toronto last season.

People Must Use
Intelligence

Science now promises to take the toil out of weed eradication. It has come up with a spray that will kill the noxious growths, but will harm vegetables. It sounds like Utopia for gardeners.

It is well to note, however, that the announcement is made with some reservations. The new spray must be used carefully according to directions. Like many of the remedies developed for human ills, careless handling can lead to disaster. All the great discoveries of science will not bring us to an age in which we are relieved of the responsibility for using our God-given intelligence. Thought will always be necessary, and for that we should be thankful. — Windsor Star.

GEMS OF THOUGHT

ALLEGIANCE

Man's primary allegiance is to his vision of truth, and he is under obligation to affirm it. — Jane Addams.

I know that the Lord is always on the side of the right, but that I and this nation should be on the Lord's side. Abraham Lincoln.

The government of divine Love gives its omnipotence from the love it creates in the heart of man; for love is almighty, and there is no loyalty apart from love. Mary Baker Eddy.

In the observance of the laws of God and in the promise of the Gospel of Jesus Christ there is the best guaranty of peace upon earth and the only hope of eternal life. Benjamin Harrison.

We look to Thee: Thy truth is still the Light Which guides the nations, groping on their way.

Standing and falling in disaster, night, Yet hoping ever for the perfect day. — Theodore Parker.

CANADA'S COAL
RESERVE ENOUGH
FOR 27 CENTURIES

OTTAWA.—The royal commission on coal sharply reduced estimates of Canada's coal reserves, but soothed the dismayed with the announcement that there should be enough for everybody for the next 27 centuries. The report said Canada possesses about 98,000,000,000 tons of mineable coal or about 40,000,000,000 tons which is recoverable.

The estimate, compiled by Dr. B. H. Mackay of the federal mines department, was based on current level of production. His total worked out at less than 10 per cent. of the only previous nationwide estimate, one of 1,360,525,000,000 tons made in 1913 which could not be considered an accurate estimate from the standpoint of practical mining.

FUNNY And
OTHERWISE

When the prisoner in the dock was asked if he had anything to say before sentence was passed on him, he replied:

"I'm sorry I took the money, my lord, but you know the old saying that the more a man has the more he wants."

The judge nodded understandingly.

"Well," he said, "you are getting twelve months. How much more do you want?"

"Mabel says she's wildly in love with her new car."

"Just another case of a man being displaced by machinery."

The rejected suitor was making his final plea.

"What," he asked, "has this fellow got that I haven't?"

And the girl answered: "Me."

For two long hours the members of the town council had been discussing a new means of communication with a neighboring village. Every time a suggestion was made one member or another would find some fault with it.

At last the chairman arose: "Settlement," he said, "this quibbling is getting us nowhere. Now I suggest that we put our heads together and build a concrete road."

A stranded English actor went into a sordid eating house in New York for a cheap meal. He was horrified to recognize his waiter as a colleague who had played with him in London.

"Great Scott!" he gasped. "You—a waiter—in this place?"

"Yes," replied the other in dignified scorn. "but I don't care."

Called before the orderly officer, the private was being "put through it."

"What's that you say?" snapped the officer sternly. "You break a bottle of beer over the corporal's head and then have the audacity to stand there and say it was an accident?"

"Yes, sir, that's right, sir," replied the private; "I didn't mean to break it."

The husband was showing the college student his room.

"As a whole, this room is quite nice, don't you think?" she said. "I suppose so," he agreed. "But as a room it's not so good."

The hunter burst into camp and seeing the guide splitting wood, excitedly asks, "Are Harry, John and Albert here?"

"Vip," said the guide, "they're all in the cabin."

"Vip," said the hunter, "then I shot a deer."

When your
little one
catches
cold-

Tonight . . . do what most mothers do to relieve miseries of children's colds. Simply rub warming Vicks VapoRub on throat, chest and back at bedtime. Results are so good because VapoRub's special relief-bringing action starts right away and keeps on working for hours during the night while the child sleeps. Often by morning most misery of the cold is relieved. Remember, Mother . . . when your children catch cold . . . be sure you get time-tested Vicks VapoRub.

RECORD FLIGHT BETWEEN
BRITAIN-NEW ZEALAND

LONDON.—A British piloted four-engine York plane, which left London recently, created a record for a public transport machine, covering the route to New Zealand in 59 hours, it was learned.

The plane, flown by Air Marshal D. C. T. Bennett, who commanded the R.A.F. Pathfinder Force during the war, was chartered by a Greek shipping company to carry seamen to New Zealand to man a ship there.

"Krene" New Material**Manufacture Of New Plastic Fabric Is Revolutionizing Textiles**

FOR over 60 centuries men have woven fabrics. Jacob's coat of many colours—the curtains that hung in the palaces of the Pharaohs—the famous tapestries of Bayeux—all were woven! But several short years ago an entirely new process in fabric manufacture amazed the textile industry. For the first time in history, science created a material that was compressed between rollers to tissue consistency, then plasticized for incredible strength and beauty.

Here was a far more revolutionary step in the manufacture of textiles than even the discovery of the power loom which touched off the Industrial Revolution in the 18th century. Vast new horizons of research and production opened up.

Made In Canada

Among the leaders in this field were Canadian National Carbon Company and its associates. Already famous for such outstanding products as "Eveready" batteries and "Prestone" anti-freeze they approached the problem of producing a marketable plastic fabric. Their research scientists were experienced and enterprising... their resources practically unlimited... from their laboratories came "Krene" plastic fabric.

"Krene" is a beautiful, flexible material that has the sheen and smoothness of satin, plus the sturdiness of tuxedo. A damp cloth will wash it. A crease can't stay in it. Yet any budget can afford it. Because it comes in seven eye-thrilling colours, it is also water-proof, and almost indestructible—"Krene" plastic fabric is ideal for shower curtains, bathroom window curtains and rainwear. Because it is flexible and translucent—"Krene" makes the finest of garment bags. Because "Krene" is so easily wiped clean—it is perfect for aprons, kitchen curtains and table cloths.

New Uses To Come

Its possibilities are limitless, but its thousand uses have still to be realized. The reasons for this are two-fold. Firstly, its manufacturers insisted that before "Krene" plastic fabric was introduced to the Canadian public it must be as nearly perfect as possible. Secondly, the War completely upset production plans and by the time "Krene" was perfected all of it that could be produced was urgently needed overseas.

And so it happened that "Krene" plastic fabric was actually tried and tested on the battlefields, rather than in the home. It came through—quite literally—with flying colours. As protective covers for Allied planes it completely shut out rain, ice and sleet. For aerial delivery containers, it proved tough and resilient.

Heat-welded Seams

But now that victory has been won, "Krene" plastic fabric is being fashioned into peacetime requisites. It is scheduled to make its first appearance in Canadian stores this spring in the form of "Krene" shower curtains and window curtains. Shower curtain seams will not be "sewn" or "tacked" but heat-welded—stronger than even the material itself. In the same way, the ring-holes from which the curtains hang will be heat-welded for strength. As quickly as production and the availability of materials will allow, other creations made of

"Krene" plastic fabric will follow—some of which have already been mentioned. Into them will go entirely new manufacturing techniques.

Smart New Rainwear

For instance, a raincoat will result that hasn't a stitch in it. Bathtubsides, beams and edges will be heat-welded. Completely practical and refreshingly smart, you will be able to fold this raincoat into a bundle not much larger than your fist. Leave it that way for days if you wish... then shake it free from its creases and you will find that it has neither mildewed nor cracked, lost its shape nor its softness. Now being planned are raincoats in several colours, as well as black, and also in smart gingham checks. "Krene" plastic fabric leather will be available in matching or contrasting shades.

Gay, Jaunty Aprons

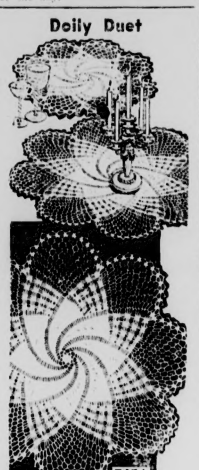

"Krene" aprons are on their way too. Jaunty aprons, smartly styled, with an adjustable tie-ripping fixture that permits a single model to adjust for sizes from 14 to 42. Imagine your kitchen aglow with "Krene"—bright and cheery with curtains that you wear wipe down. And picture a bathroom—filled with warmth and colour from shower and window curtains that cannot fade. Tobacco pouches, closet accessories, make-up cases, refrigerator crippers, bond covers, crib sheets—all these and more are being planned. And all of them will be made of "Krene" plastic fabric! In view of these predictions, this versatile fabric, with all its richness and colour, will prove to be the most exciting material to greet the housewife since the first precious silk was smuggled from China.

Provides Luxury In Air Travel

The latest aircraft put into service by the British Overseas Airways affords an excellent example of luxury in modern air travel. In addition to the main cabin with its deep seats convertible into bunks, there are promenade lounges providing ample room for reclining. A cocktail bar, a ladies' powder room, decorated in white and pink and men's dressing room in white and grey. Ceiling lights are reinforced by individual lamps mounted on the back of each seat. The seats all facing forward have hinged flaps which let down to form a table 27 inches high. The window curtains are of cream nylon. As a finishing touch the lining cloth has been specially treated for its capacity to keep out strong moonlight which might otherwise keep passengers awake.

**SAV MITE'S CLOUTS KILLED HIS FATHER—A**

It had been almost heart-breaking. On three separate ends it appeared that we had the necessary margin of safety, but a rub of a guard, a running shot by Ben Cartmel, Gowlock's brilliant vice-skip, or a canny draw by the opposing skipper him- self had kept the score very even. A miss on the twelfth had enabled the Glenbrook skip to pull even. Now the brilliant dreams of both sides were to be realized or shattered by the outcome of the 13th end. We had last rock. The front must be kept open at all costs. Tommy McKnight, the Glenbrook lead, placed his first stone in front of the rings. Charlie Kerr promptly knocked it off. McKnight drew another to the same spot. This time Kerr missed. Bill McKnight then drew behind his brother's stone to the four foot ring. Mary MacIntyre, our second, went after the front rock again but missed. The Glenbrook second placed another guard on the shot stone. MacIntyre pinched one of them off with his last rock. Cartmel replaced it. Grant Watson, my brother and cleanup man, came to bat. His running shot cleared the front of all guards. Cartmel again covered the counter. Grant returned it, barely missing the shot rock in so doing. McKnight was now fighting to maintain a guard on that rock in the rings which loomed greater in importance with each shot. This time he achieved a close guard and executed it perfectly, strapping in front with an out-turn on the 12-foot circle. There they were!—What should I do for the guard, or try to draw to the shot? The four of us went into a huddle and talked it over. This shot could mean the finish. It had to be made. We decided a draw put the guard to the shot-rock was the logical play as the stone was just back of the toe line. I have said prayers before but never as enthusiastically as at that particular moment. The spectators were not standing. You could hear a pin drop. The blood was pounding in my veins, and my eyes were racing feebly, but somehow I got that shot away and somehow my prayers were answered. The stone drew beautifully in behind the guard and nestled up against the shot stone.

Loyal supporters who have struggled for years to see London, Ont., regain its place in the hockey sun, took new heart as word spread around that Boston Bruins will move into London to sponsor a junior club, with an eye to backing a professional entry when the city is ripe to return to minor league competition.

THRILLS OF THE ROARIN' GAME

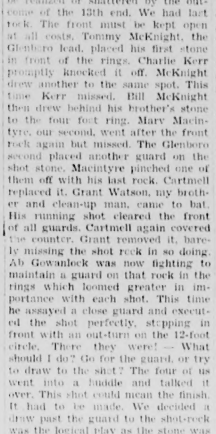

By BEN WATSON, Winnipeg, Man. Canadian Curling Champion, 1936-42

For me, curling has provided many thrills but the one that topped them all took place one night in February, 1936, at the Amphitheatre Rink, Winnipeg, when we were engaged in a titanic struggle with the famous Gowlock of Glenbrook, for the right to represent Manitoba in the Dominion Curling Championships in Toronto the following month.

Previously, whenever the Gowlock and Watson made head met, a curling duel of sizable proportions had always resulted. The tide of fortune always hinged on the last rock. The last end, neither of us ever had the satisfaction of two consecutive wins. The "heat" was on in every game from the first stone cast to the last. A miss on the later stages of a game was catastrophic and we all knew it.

Hence the 4,000 spectators who sat tense and expectant through three hours of play on this particular evening had no notion of leaving for home when Gowlock scored two to lead the count in the regulation twelve ends, and sent the game into overtime.

It had been almost heart-breaking. On three separate ends it appeared that we had the necessary margin of safety, but a rub of a guard, a running shot by Ben Cartmel, Gowlock's brilliant vice-skip, or a canny draw by the opposing skipper him- self had kept the score very even. A miss on the twelfth had enabled the Glenbrook skip to pull even. Now the brilliant dreams of both sides were to be realized or shattered by the outcome of the 13th end. We had last rock. The front must be kept open at all costs. Tommy McKnight, the Glenbrook lead, placed his first stone in front of the rings. Charlie Kerr promptly knocked it off. McKnight drew another to the same spot. This time Kerr missed. Bill McKnight then drew behind his brother's stone to the four foot ring. Mary MacIntyre, our second, went after the front rock again but missed. The Glenbrook second placed another guard on the shot stone. MacIntyre pinched one of them off with his last rock. Cartmel replaced it. Grant Watson, my brother and cleanup man, came to bat. His running shot cleared the front of all guards. Cartmel again covered the counter. Grant returned it, barely missing the shot rock in so doing. McKnight was now fighting to maintain a guard on that rock in the rings which loomed greater in importance with each shot. This time he achieved a close guard and executed it perfectly, strapping in front with an out-turn on the 12-foot circle. There they were!—What should I do for the guard, or try to draw to the shot? The four of us went into a huddle and talked it over. This shot could mean the finish. It had to be made. We decided a draw put the guard to the shot-rock was the logical play as the stone was just back of the toe line. I have said prayers before but never as enthusiastically as at that particular moment. The spectators were not standing. You could hear a pin drop. The blood was pounding in my veins, and my eyes were racing feebly, but somehow I got that shot away and somehow my prayers were answered. The stone drew beautifully in behind the guard and nestled up against the shot stone.

On National Scale**Red Cross Society Plans Blood Transfusion Service For All**

By Margaret and Robert Francis in Ottawa (Citizen)

CANADA will be the first nation in the world to have a complete blood transfusion service organized and administered by a national voluntary organization. The first step towards it has just been taken in British Columbia by the Canadian Red Cross Society. For the thousands who would die every year from hemorrhage during illness, accident or childbirth, the precious blood plasma will be available for no cost whatever, whether the person needing it is in a city hospital or in the remotest corner of the province.

Officials of the society have said that the Red Cross blood transfusion service will go to any length to rush blood to obscure hamlets or logging camps in emergencies. When roads are blocked they will call on the R.C.M.C. or the provincial government for volunteer pilots to drop supplies by parachute.

As blood-donor week they opened in Vancouver to build up an supply of all types, the victim of a boiler explosion, injured and badly scalded, was carried to Vancouver General Hospital. Within a few hours he had been given transfusions which equalled the amount donated by seven persons.

The blood actually used in this instance was from supplies built up during the war, but officials pointed to the accident as an example of the sudden need which can arise for an unlimited supply.

More than 10,000 citizens registered as donors during the first five days of donor week and they will be called back a few score at a time to give their quota. Registrations have arrived from all over British Columbia, with a large number of people in far off towns anxious to assist a project which can help them in sudden crisis.

War Experience Helped

Experience gained during the war, when blood transfusion teams worked close to the front lines and even parachuted to isolated units with casualties, has brought the realization that many who meet violent deaths in peacetime could also be saved by prompt blood transfusions.

In Canada in 1944, there were about 7,000 deaths in accidents, many of whom might have been saved. Some of the country's maternal deaths, of which 20 per cent, were said to be due to loss of blood, might have been avoided. Loggers and miners injured at isolated settlements will have the benefit of transfusion service with less delay than ever before.

The service will not cost anyone a nickel. The Red Cross emphasizes, whether he owns a million dollars or 15 cents. The blood, equipment and technicians are given by the society while hospitals in turn have agreed not to charge for administering the transfusions.

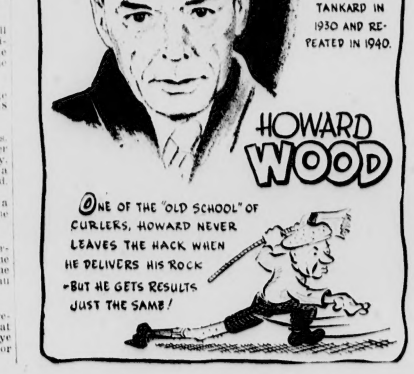

Newspapers have called the scheme one of the worthiest ever initiated by an organization long known for its unselfish service.

A brilliant McGill graduate, Dr. W. Stuart Stanbury, M.B.E., who worked on blood transfusion organization for Britain's Ministry of Health during the war, surveyed facilities across Canada before the scheme was blueprinted.

Keeping in the back of his mind the record of life-saving by blood transfusion organizations built up during the war, Dr. Stanbury studied hospitals in cities and rural areas of every province. He recalled that during the First World War over 75 per cent, of the soldiers with compound fractures of the thigh died as a result of their wounds, while in this country...

WILD DUCKS DECREASE REVEALED IN CANADA

A pronounced deterioration in the wild duck situation in Canada is revealed in a statement issued at Ottawa by Hon. J. Allison Glen, Minister of Mines and Resources. The duck population has been falling off for a number of years because of surface water conditions on the far-flung mid-continental breeding grounds and of a large increase in duck hunting activity following the end of the war.

Reports from Dominion Wildlife Officers across Canada have shown that the duck migration in the autumn of 1946 was much smaller than in 1945. Indicating the gravity of the situation, it was estimated that in an area of at least 35,000 acres in southwestern Saskatchewan nesting conditions continued to be poor for waterfowl of all kinds, owing to lack of surface water. In southern Alberta a similar condition existed in a minimum of 25,000 acres. The duck situation in Manitoba was also reported to be critical.

Two abnormally cold seasons in the north have reduced the breeding of many kinds of geese, and autumn flocks of honkers, waders, and snow geese contained very few young birds.

Hon. Mr. Glen stated that concerted action by government agencies, private enterprise, and individual hunters will be necessary to prevent further losses to the country's waterfowl resources.

A continent-wide waterfowl inventory being carried on jointly by the federal wildlife authorities in Canada and the United States is now nearing completion. It was pointed out, and information obtained from the survey will determine what measures it will be necessary to take to protect the remaining ducks from further serious depletion.

BRITAIN TO BUILD HOMES FOR ALL WITHIN TWO YEARS

Britain plans to provide every family with a separate dwelling by the end of 1948. This encouraging prospect was disclosed by figures and estimates contained in a White Paper on Housing published by the Minister of Health on 30th Jan. The generally accepted estimate of the number of houses needed to give every family in Britain their own home is 750,000. More than 150,000 have now been completed and the Government's two year plan envisages building 600,000 houses needed to reach the goal of homes for all at a rate of 300,000 annually during this year and next.

EASY MONEY

It's warble time again—and time for action. Action last year brought to 30,000 Alberta farmers a gain of \$5.00 per head on 800,000 cattle. To 40,000 others, it meant less. The season is short, the prize attractive, and now is the time for every cattle owner to ensure his share of the profits.

The warble or heel fly is Alberta's most expensive cattle pest, and the easiest to control. At this time of year simple treatment is all that is needed. Once the larva has hatched from the egg and entered the host, nothing can stop its 8-month migration through the animal's system. Not until it arrives under the skin of the back and bores its breathing hole can we attack it. There is nothing we can do to stop the inflammation, irritation and unwholesome course. These effects of last summer's infestation have by now cost the owner approximately \$5.00 per head in reduced production, damaged hide, and feed waste.

These thousand Alberta stockmen avoided all this. It cost them about 5 cents per head—a small expenditure in return for such a handsome dividend. These men highly recommended warble fly control, not only as good business but as a humane act towards their cattle. Treatment is cheap, easy and completely effective—and it's warble time now!

When Jim Tulliver came a-bustling up to me I knew something was eating him. He owns a little farm near mine in southeast—sometimes suitably called "swampy"—Missouri, and I've known him a long time. That day his brown eyes were as bright as a woodchuck's and his whiskers were fairly bristling.

"Never seen nothing like it!" he snarled, "never—nowhere. And I wouldn't 'a' seen it at all, except for them pesky squirrels."

"Was losing a heap corn outa my patch down by the timber," he went on. "Figured them blasted bushy-bills was eating it, so I went down there with my shotgun last sundown, fixing to scare the fur off 'em."

"When I got there I heard some-thin' snapping of the ears like a mechanical ricker. I snuck up closer, took a look-see and blarney near dropped my gun. There was a big boy, standing up on his hind legs, a-picking the corn! Had about half an armful already—half an armful of my planting ears, mind!"

"I was so dumb I blathered it. I just stood there staring. After the critter loaded up, he walked over to the fence, held the tin down with his free paw, and stepped over. He carried the corn over to a hollow stump and dumped it in. Then he turned if he didn't come back, pick up another armful, and dump that one in too! After that he ambled off into the woods, right satisfied."

"Being dumb curious to see what the boy had been up to, I climbed the fence and looked into that there stump. And what do you think I saw?"

"Jud paused and looked at me as if during me to make a guess, but I shook my head."

"A half-grown razorback hog!" he exploded triumphantly. "The critter couldn't get out, and the boy was a-fattening him up for future use."

A Message to CITY AND TOWN EXECUTIVES

Larger cities and towns are discovering that parking is developing into a serious problem. In many places, parking on main streets and highways obstructs traffic, discourages shopping, and increases the hazard to both motorists and pedestrians.

Our study of this problem indicates that the solution lies in providing OFF-STREET PARKING accommodation—convenient for citizens and attractive to visitors.

We respectfully suggest that municipal councils and other public bodies give consideration to solving this problem in the interests of their communities. The A.M.A. will be glad to furnish all information it has available on this subject.

ALBERTA MOTOR Association

EDMONTON — CALGARY — LETHBRIDGE

"GENEROUS" ONTARIO MOTORISTS

Stomachbound motorists to the number of over one hundred found food and shelter at the farm home of John Kneeshaw, near Bradford, Ontario. During the night the crowd of motorists were accommodated Mrs. Kneeshaw fed them 30 dozen eggs, large quantities of meat, the family's milk supply, and many loaves of bread. After a snow plow bucked a path through the drifts, the motorists left. Before doing so a hat was passed for the benefit of the Kneeshaws. The take totaled less than \$5.00. One motorist borrowed a shovel and another a milk pail. Neither were returned.

TRY BARLEY

A.M. Wilson, Field Crops Commissioner, points to the need for more barley in 1947. He says that there is a place for barley on every farm, but especially on the live stock farms of Central and Northern Alberta.

When given an equal opportunity more rounds of grains can be produced from barley than from any other grain. Barley matures in less time than wheat or oats, and this early maturity makes possible extra spring cultivation to grow out the weeds. With its extensive root system and flourishing top growth, barley is a desirable competitive crop for weed control.

Barley is used for many purposes. As a feed crop, it will make possible the hog production so urgently required. As a cash crop it may be sold direct for malting. Ensure increased barley acreage for 1947 by arranging for seed requirements while supplies are still available.

MAKE SURE OF SEED SUPPLIES

To produce the feed necessary for increased hog production 300,000 more acres of barley are needed in Alberta in 1947. This objective can be achieved only by making sure of seed supplies. Eastern Canada and other outside markets are waiting to buy thousands of bushels of both feed and seed barley, and as soon as shipping facilities are available, Alberta's supplies will decrease rapidly.

Barley that can be cleaned to seed grade is still available on many Alberta farms, and farmers are urged by the Alberta Department of Agriculture to arrange for their supplies early. Increased hog production depends on adequate feed and the best way to assure plentiful supplies of feed is to increase acreage. Grow 25% more barley this year.

FORM OF GOVERNMENT

"Unlimited power is the ideal thing when it is in safe hands. The despotism of heaven is the one absolutely perfect government. An earthly despotism would be the absolutely perfect earthly government, if the conditions were the same, namely, the despot the perfect individual of the human race, and his lease of life perpetual. But as a perishable, perfect man must die, and leave his despotism in the hands of an imperfect successor, an earthly despotism is not merely a bad form of government, it is the worst form that is possible."

—Mark Twain.

gary at 9 p.m. Dr. W.A. Maier,
speaker.

(BY H.G. HAMMILL M.L.A.)

The Fourth Session of the Tenth
Legislature Assembly of Alberta
got under way Thursday last with
out an undue amount of pomp and
flair. In the absence of the lieuten-
ant-governor, J.C. Bowen, due
to illness, Chief Justice Horace
Harvey, as Administrator, read the
Speech from the Throne to a packed
House and gallery.

Indications in the Throne Speech
predict one of the best Sessions yet.
Of particular interest to Alberta
farmers was the announcement that
the Social Service tax would be
abolished during the present ses-
sion.

Good news for the old age pen-
sioners was contained in the Speech
from the Throne, providing free
medical and hospital care for all old
age pensioners, recipients of
mothers' allowances, blind pension-
ers, and their dependents.

Of further benefits to the farm-
ing population was the announce-
ment that the number of District
Home Economists would be in-
creased during the coming year. Every
effort is being made, in co-oper-
ation with the Federal Government,
to develop on a large scale the
water resources of the Province.

This means the development of
more irrigation projects at an early
date. Efforts will be continued to
work out a Dominion-Provincial
programme for the conservation of
the watershed on the eastern slope.

Attention is being directed on
rural electrification and an expansion
in this field is anticipated as
soon as material is available. Ad-
ditional full-time health units will
be established as soon as trained
personnel are available, and of in-
terest to hospitals is the announce-
ment that the Government will in-
crease the amount of its per diem
hospital grants.

Educational grants will be in-
creased, but more particulars in this
connection will be forthcoming

and New Hampshire

EDMONTON HATCHERIES

7811 - 104th Street,
EDMONTON

Order now to insure delivery
when required.

EDMONTON HATCHERIES

7811 - 104th Street,
EDMONTON

when the Budget is presented.

A very wide read and compre-
hensive programme in highway
construction is anticipated. Muni-
cipalities are promised increased
grants for the development of mar-
ket roads.

Amendments to the Alberta Bill
of Rights will be introduced. The
Government proposes to appeal to
the Privy Council the finding of the
Alberta Supreme Court with re-
spect to the Alberta Bill of Rights as
passed at the last Session.

It is my intention, through the
courtesy of the editor of this paper,
to supply weekly accounts of the
highlights during the term of the
present Session.

The next few days will be taken
up with the Debate on the Speech
from the Throne. The Debate was
started when Mr. N.E. Cook, M.L.A.
for Olds, moved a motion to adopt
the Speech, which was seconded by
Mr. J.M. Popil, M.L.A. for Red-
water—but more details of this
next week.

The second week of the present
session of the Alberta Legislature
saw continuation of the Debate on
the "Speech from the Throne."

The member from Banff-Cochrane
hater—but more details of this
next week.

Hon. A.J. Hooke, in reporting to
the Legislature on the work in his
Departments, dealt extensively with
the work of the Film Censorship
Board. This independent Board last
year checked over 3,100 pictures.
They brought about 116 elimina-
tions (parts of pictures cut out)
and refused two pictures, namely
"Allotment Wives" and "Decoy."

In dealing with Housing, Mr.
Hooke pointed out material from
dismantled Military Camps was be-
ing made available as quickly as
possible according to a priority list
where Government Departments
came first, Municipalities and
School Divisions second, and vet-
erans' homes and businesses next.

Hon. C.E. Gerhart, in reporting
on the Department of Municipal
Affairs, told the House that the
farming population was down 14
per cent last year, while the Pro-
vincial population showed a 5 per
cent increase.

The use of electricity in the Pro-
vince last year was up 25 per cent,
while tax collections generally
were very high.

The Social Service Tax, a field
which last year netted the Govern-
ment over a million dollars, is be-
ing returned to the Municipal Dis-
tricts. This field may henceforth be
used by the Municipalities to in-
crease their revenues.

The Minister, in dealing with the

Department of Trade and Industry,
gave information which showed a
very favorable industrial develop-
ment and expansion. Last year
sixty-six new industries started in
the Province. This has provided em-
ployment for more than a thousand
people, and has added much to the
total provincial assessment. Thirty-
six new industries are now making
plans to enter the Province, with
many more making enquiries.
Twenty-seven new co-operative as-
sociations were formed last year.
The total business done by co-
operatives associations last year ex-
ceeded \$104,000,000.

LETTER TO THE EDITOR

Dear Editor,

I take this opportunity to write
on behalf of the Jutland Christian
Service Guild in regards to the
drinking of alcoholic drinks as a
beverage. I feel too little is spoken
about it by those of us who have
experienced the "good times" in
life in the Lord and by those who
have been fortunate enough to be
delivered from the life degenerat-
ing effects of alcohol.

Perhaps statistics should be cited.
Alberta spent for booze in 1946
about \$36,000,000. Just try to cal-
culate in any respect how many
worthwhile commodities or pro-
visions could be supplied to our
people for their comfort and wel-
fare. Especially would it be so to
those families mostly responsible
for such an expended sum.

Quotation: "What the best and
wisest parent wants for his child,
that must the community want for
all its children."

Surely those who want exclude
liquor.

Often we are reminded of destruc-
tions caused directly or indirectly
by alcohol. The disastrous hotel fire
in Atlanta, Ga. is believed by the
fire department chief to be caused
by a careless smoker dazed by
drink. Other fires have been put out
before by the same cause.

Some people drink because they
feel ours is a free country. It is free
for works which come within the
walls of justice. One lad said he
was thus free, then a charge was
laid against him for drunkenness
and disorderly conduct. Such drink-
ing is not freedom, but a degrad-
ing bondage.

In the year of our Lord 1947, He
"our Lord" is still the only one who
can and will satisfy any desires
which men try to satisfy with the
enemy liquor.

Yours truly,
J.M. HOOVER

In Lonely Outposts

Your RED CROSS help is needed!

In frontier districts of Canada the
nearest hospital or doctor may be a
hundred miles or more away. Over
twenty years ago the Red Cross
began establishing outpost hospitals
and nursing stations in these remote
regions. Today a whole chain of
Outpost Hospitals can be found in
the frontier districts of the Dominion.
They bring medical science within
reach of these isolated communities.
Hundreds of thousands of patients

have been treated in these tiny hospitals,
including thousands of confinement
cases. These hospitals also serve as
health centres for their communities,
carrying on medical inspection in the
schools and organizing clinics for the
children. Your help is needed to main-
tain and expand this vital work. Stand
behind the Red Cross, and help bring
medical aid to your fellow-Canadians
pioneering on Canada's frontiers. Give
NOW... give generously.

CANADIAN RED CROSS

The work of mercy never ends—Give

ELECTRIFY your Farm with a FARM IMPROVEMENT LOAN

What you can do with a FARM IMPROVEMENT LOAN

You can buy implements and equipment; buy, install, extend or improve a farm electric system; build, repair, extend or improve farm houses and other buildings; construct fences, drainage systems, slusher belts and make other improvements to farm property. For full particulars ask at any branch for our booklet, "FARM IMPROVEMENT LOANS".

Electricity can take the drudgery out of many a farm chore—save you time and money—help make life pleasanter and easier for everyone in the family.

Plan now to electrify your farm with a Farm Improvement Loan. At any branch of The Royal Bank of Canada, loans are available to farmers for the purchase, installation or improvement of farm electric systems. These loans can now be made on security of the equipment itself and repayment arranged by convenient instalments. If electrical equipment is still hard to get in your district, you can make a start by doing your preliminary wiring. Wire, switch boxes, transformers, etc. are available in many districts. By starting now you will be ready to put electricity to work on your farm as equipment comes on the market. Talk your plans over with the Manager of your nearest branch.

THE ROYAL BANK OF CANADA

Didsbury Branch: C. F. NICHOLL, Manager

-: DISTRICT NEWS :-

NOTES FROM THE EAST

Mr. Leslie Shells, who has been visiting with his sister, Mrs. G. Cammaert of Rockyford, returned home on Wednesday.

Mrs. Clara Heeren, who has been ill in Didsbury for the past week, is now improved and ready to return home.

Mrs. Earl Wood is spending a while in town with Mrs. James Shells.

Miss Dorothy Ball was a supper guest with Mr. and Mrs. H. Shells on Friday.

Miss Evelyn Dowell spent the week end at home.

Mr. Donald Thompson was taken ill during the storm and had to be taken to town by sleigh in order to get to Calgary for medical treatment. Donald is to undergo a tonsil operation in the near future. Better eat some hearty good meals beforehand, Donald.

Don't forget the dance at Lone Pine on Friday, March 7th, sponsored by the Hall Board.

The Lone Pine W.L. will meet at the home of Mrs. Harold Shells on Wednesday, March 12th. Don't forget to "Wear The Green," and bring your aprons, socks and dollies, ladies.

MELVIN NEWS NOTES

Mr. and Mrs. Wm. Summers returned last week from a month's holiday at the Pacific coast.

Walton Youngs left Sunday evening for Moose Jaw, Sask., where he has a job with a surveying outfit of the RCAF.

The weather man dished out a lot of snow for Albert Schneider's sale, but in spite of a fairly small crowd we hear he had a pretty good sale. The Melvin Red Cross group served the lunch and made about \$20.

The A.F.U. met at the Chandler home on February 28th with only a small attendance due to the bad roads. The March meeting will be held at the home of Mrs. Annie Krebs.

And by the way, don't forget the A.F.U. whist drive at Doug Hood's on March 10th.

The March Red Cross meeting will be at the Chandler home instead of the McCaughton home as announced previously.

Junior: "Say, Grandpa, make a noise like a frog."
Grandpa: "What on earth for, Junior?"

Junior: "Well, Dad says that when you croak we'll get \$5,000."

HOW TO OBTAIN ENTRY FORMS FOR ALTA. RECIPE CONTEST

Inquiries about the \$1,000 recipe contest are flooding the Alberta Travel Bureau in the Legislative Buildings at Edmonton. Entry forms which contain all the answers must be obtained from the local Treasury Branch or from any district Agriculturist. They may also be obtained by writing any radio station but time is an element in the contest and, usually, time taken in handling the heavy mail, may be saved by getting the forms from the Treasury Branch or the D.A. in person. Time is important because, in the case of ties, the first recipe received gets the preference.

Each entrant may enter as many recipes as desired but each recipe must be on a separate entry form. This means, one entry, one form; six entries, six forms.

Entries must be postmarked before midnight April 30, 1947, and mailed to Alberta Travel Bureau, Legislative Building, Edmonton, not to the Treasury Branch or District Agriculturist.

The prizes are: First, gold medal and \$500; second, silver medal and \$200; twelve consolation prizes of \$10 and ribbon.

BURNSIDE NEWS NOTES

Bill Jenkins of Turner Valley was storm bound in the district last week while visiting with his brothers.

James McCulloch had the misfortune to freeze his tractor radiator on Monday while hauling a load of hay.

The Lone Pine hall board annual meeting was held on February 26th and the retiring member, Sam Elliott, was re-elected. J.C. McCulloch, a member of the board, was unable to be present at the meeting due to illness.

On the old farm known to the old timers as the Gilbert Howe homestead and later as the Alex Leiper farm, the old shack is slowly but surely being dismantled and we are wondering what is going to take its place. Will Poverty Flats have to change its name?

The miscellaneous shower for John Coates has been postponed to March 12th at the home of Mrs. R. Shells.

Ivor Weber left Tuesday morning for Calgary with a load of cattle for E. Page & Son.

It was over 20 below zero Monday night, but thank goodness the roads are still open and the mail is getting through to us.

WESTERDALE NEWS

Mr. Ben Kershaw suffered severe head injuries on Tuesday last while skidding out logs for firewood. Having three logs tied in the chain at one time, one of them struck a solid object causing the top of the tree to fly up in the air and swing round, striking him a heavy blow on the left ear and eye. Mr. Kershaw was knocked unconscious for at least an hour. Luckily he was not alone in the bush at the time. He was taken to his home where he was confined to his bed for four days following the accident. He is now progressing favorably and is able to get around again.

We extend congratulations to Mr. and Mrs. A. Jackson on the occasion of their forty-ninth wedding anniversary on February 28th.

A dance will be held in the Westerdale Hall on March 7th.

The Westerdale Willing Workers are holding an Irish Stew Dinner and Bazaar in the Westerdale Hall on March 19th, from 5:30 p.m. to 8:30 p.m.

Darol Herbert reported having seen three crows last week.

You can Talk to one man. Want ads talk to thousands.

WORLD HAPPENINGS BRIEFLY TOLD

John Masters, 102, London's oldest man, is dead. At the outbreak of the war he tried to enlist, giving his age as 80.

The United States has decided to increase exports of rice to Cuba where sugar workers are reported in "dire need".

The Chinese Nationalist Government has issued 3,000,000,000,000 Chinese dollars in new bank notes since early in 1942.

Blood plasma and serum, produced by a drying process in 1940, is still fit for use, says a report by the Medical Research Council.

A 250-acre cooperative farm, with a perennial water supply, is to be set up in Bombay, India, as an experiment in land colonization.

Canada's 1936 tobacco production—the bulk of it from western Ontario—has been estimated at 124,667,000 pounds, largest ever recorded.

President Truman has been invited by Viscount Alexander, governor-general of Canada and Lady Alexander to visit the Dominion this year.

The Japanese government price board said that food prices had risen as much as 100 per cent. in the last year. An egg costs 10 yen (67 cents).

The British mine-sweeping flotilla, which has been based at Cork, Eire, since last March while clearing south coast minefields, has gone back to its home port in Britain.

CHANNEL TUNNEL, AGAIN

A scheme for a Channel Tunnel between England and France—mooted at regular intervals before the war—is to be revived, and an all-party committee of British members of Parliament is being formed to study the question in the light of new engineering devices and political and economic trends. The tunnel would be 20 miles long and would cost about \$120,000,000.

A frog found in Ecuador, when sitting with limbs drawn close to its side is smaller than a queen bee.

Passenger Tired Of Waiting Drives Tram

PHILADELPHIA—Motorman Milton Shaw pulled his trolley to a halt recently and dropped into a lunch room for a snack.

Two persons boarded the trolley, then another. The latter fidgeted in his seat, suddenly jumped up, ran to the controls and started the car.

"Hey, you can't do that!" shouted Shaw as he dropped his food and gave chase.

Shaw pursued the trolley seven blocks. Then the man at the controls halted to pick up a passenger who turned out to be Patrolman Samuel Wych.

The driver, who said he was George Quigley, 31, was arrested on charges of malicious mischief and operating a trolley without the owner's consent.

Fashions

BY ANNE ADAMS

A New Slim Line

Be smart, use this dress to work some good psychology on the Men in your life. Pattern 4914 gives you an entirely new line, with an attention-getting sidesweep and scalloped hem.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4914 comes in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3½ yds. 36-in.

Send twenty cents (20¢) in stamps (cannot be accepted for this pattern). Write plainly Size, Name, Address and Style Number, and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 171 McDermott Ave. E., Winnipeg, Man.

Mrs. Armadillo And The Babies

SASKATCHEWAN GETS TEXAS ARMADILLO—The National Park in Saskatchewan is going to be host to one of this country's few living prehistoric creatures. It is an armadillo from Texas, the sharp-nosed, hard-shelled mammal was adopted by Frank T. Clarke of Regina, Clarke, who was in Texas for the North American wildlife conference, took a liking to the ugly wild creature and said it would be a major attraction in the park.

GIFTS FOR BRITAIN'S KING AND QUEEN

Gifts of diamonds cut as brilliants and a gold tea service to be presented by the South African Government to the Royal Family during their tour of South Africa were described in an official announcement at Cape Town.

The King will receive a small number of diamonds cut as brilliants and suitable for mounting in a Garter Women's Star. The gift will be presented in a small gold box.

The Queen will receive an engraved gold tea service consisting of a small teapot, sugar basin and cream jug.

SLAVE WAS OUTWITTED BY WOMEN'S SOCIETY

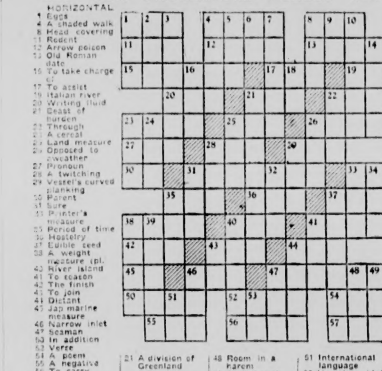

In New York the Women's Action Committee for Lasting Peace wrote to George Bernard Shaw in London saying they were raising money by auctioning some autographed books.

Shaw replied that he would not. He thought the cause of the United Nations was "too big for your little American autographed books for \$50."

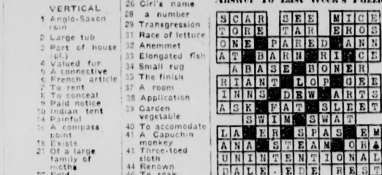

The women went ahead with the auction and sold one of the popular American autographed books for \$50.

They told Shaw's grouchy letter for \$170. New York Herald Tribune.

PROTECTION FROM WHOOPING COUGH

The Kitchener Record says a life insurance survey brought out the surprising fact that whooping cough kills more children every year than poliomyelitis and scarlet fever combined. That should be food for thought for parents who have more or less accepted whooping cough as a necessary evil for which little can be done. It is pointed out that many unnecessary deaths occur annually because parents do not take elementary precautions to prevent exposure of children to this dangerous affliction.

A little routine care can sometimes pay big dividends in such a situation.

Children should be given the protection of the whooping cough serum at an early age. Although the serum doesn't provide sure immunity, it virtually guarantees a mild case if the child happens to get the disease.

HAVING TIGHT TIME

According to the Vancouver Province couple is having an increasingly difficult time in selling marriage to young couples and making them keep up their payments. Divorce courts are grinding out decrees at record speed while the high cost of living is postponing countless matrimonial ventures. In 1946 Vancouver set a record with 1,225 divorces and in B.C., the total of broken marriages increased nearly 70 per cent. over the previous year.

WISH NOT HEERED

One of Buddha's wishes was that no images of him be made after his death. This wish has been disregarded, especially by the Burmese, who have erected a reclining statue 80 feet long and 41 feet high at Pegu.

OUR COMPLETE SHORT STORY—**COMMENCEMENT**

By E. L. FRANCIS

THIRTEEN of the seniors at Miss Fulton's boarding school were excited and happy this graduation day. The fourteenth, Betsy Van Nord, was miserable. In a few minutes she would be revealed as anything but "the select young lady" Miss Fulton's turned out. Just wait until Mary, Louise, and all her other friends say her parents. Why did they have to come and ruin everything? After practically ignoring her for four years, why couldn't they have stayed on the West Coast?

"Daddy and I could not bear to miss our little girl's big day, so we are dropping our contact at the Club Chichester," mother had written in her big, sprawling hand, "and will arrive by bus, train, or carrier pigeon." Phooie!

"The darling does," Aunt Jean sighed when Betsy read it over the telephone. "But what's a job when you've given up everything?"

Betsy interpreted this in her own light. Her parents were irresponsible. She had thought so for quite awhile, ever since they shipped her east to Mrs. Trilling. But's older sister. "It's for the good of the family," said "the hot spots where mom and I work are no place for a twelve year old beauty. Besides, we'll miss you!" Double phooie! They were just ducking their duties.

The first heartbreak over Betsy learned to love Aunt Jean, her New York apartment, and finally Miss Fulton's. It was such an exclusive school—academically high, too—that Betsy could never have held up her head without a lot of showmanship in her blood. At least that is

Get Relief From Piles
This Amazingly Easy Way

Think of an INTERNAL treatment that gives quick relief from the itching, irritation and burning, painful distress of piles.

Piles are caused by internal congestion. So

relieve them from the inside and you can be

free of them in a few days. The relief of the

congestion that is the cause of the piles

is the only way to get rid of them. The

relief is immediate and the cure is permanent.

Internal treatment is the only way to get rid of piles. The relief is immediate and the cure is permanent.

Internal treatment is the only way to get rid of piles. The relief is immediate and the cure is permanent.

Internal treatment is the only way to get rid of piles. The relief is immediate and the cure is permanent.

Internal treatment is the only way to get rid of piles. The relief is immediate and the cure is permanent.

Internal treatment is the only way to get rid of piles. The relief is immediate and the cure is permanent.

ST. VICTOR AN OASIS ON PRAIRIES

ST. VICTOR, Sask.—This hamlet of about 80 residents, 10 miles from the nearest railroad or highway, is an oasis in the dry wheatlands of south central Saskatchewan. Two dams, built with the assistance of the Prairie Farm Rehabilitation Administration, provide a stream deep enough for swimming as well as water for orchards of pines, cherries and apples. Raspberries and strawberries also thrive here.

But the most intriguing feature of St. Victor is that almost half the population is made up of men and women in their twenties. They work for a funeral benefit insurance society which does all its business by mail.

The site is a green acre in the hot summer months with swimming and fishing close at hand. In the winter, it might club entertainment is preferred there is Glasgow, Montana, a few miles away across the border.

Leader of the tiny community is J. F. Lalonde, head of the insurance society, who came from Quebec in 1910.

His brother, Eugene, was the original postmaster and still holds the post.

The Lalonde home is something of a "Shangri-la" in this far-off district. A tennis court and fish pond make it even more fantastic for a prairie home. There are maple, elms, poplars on the grounds.

Lalonde's 50-foot beach was formed when he put in his own dam which utilizes waters of nearby springs.

More Health-Giving

Nutritional Value of Milk Retained Longer in Colored Bottles

Now it's painted milk bottles. Toronto's Banting laboratories suggest that if a red or green bottle were used instead of the traditional clear glass container, the milk would retain its nutritional value longer.

Experiments with rhesus-fed bottle-fed infants led to the painted bottle idea. Nutritional and food investigations by R.C.A.P. doctors and the Toronto Hospital for Sick Children established the fact that the rhesus essential to good health and best obtained through milk and dairy products. Also established was the fact that milk exposed to sunlight loses its rhesus fairly rapidly.

The Banting laboratories' idea, then, was not prompted by any desire to bring in milk bottles into line with the current trend toward more colorful surroundings. Rather, it sprang from investigation indicating that milk in colored bottles would tend to be a more health-giving drink.

TIMELY ADVICE FOR THE WINTER SEASON

The Boston Post says the public may well be grateful to Medical Examiner William J. Brickley for advice which should be followed during the winter season. Persons suffering from heart and kidney ailments should under no condition attempt to shovel snow. This is laborious work and may well mean sudden death to those not in top condition. Don't carry heavy bundles and don't over-exert in any way. It is timely advice.

She make any introduction. She tell her friends starting at her, probably whispering about her, and she wished desperately the exercise were over. Chavon replied the happiness of her parents' faces. Her eyes were wet, she thought bitterly, and turned with relief when the song sounded for the students to assemble.

It's difficult to restrain a voice which has been trained to make itself heard in the most remote corner of a church, or, which, accounts, to doubt, for why Betsy overheard half way down the room. "Belle," said said, "we've got a lady on our hands. Was it worth it?"

Betsy looked back. Mother was smiling up at dad, contentedly. "Was it worth it?" What did he mean? Aunt Jean had paid for all this—or had she? Mrs. Trilling had never been rich, however had she suddenly found the money? Betsy could have misinterpreted what Aunt Jean tried to tell her on the phone and at other times. For a few years mother and dad had been knocking themselves out, these whom a student, not letting her know their sacrifices or loneliness, so that she could have a good education. They had relied on her to understand their love if not the details. Commencement! It was high time she started acting like a graduate instead of a dope.

Mary edged close to her and asked indignantly, "Why didn't you introduce me to your parents? They look like actors."

"They are in a way," Betsy replied proudly, "and you'll meet them right after this."

"How exciting! Gosh, you're lucky." Betsy smiled at this unexpected reaction. Yet Mary was right, she was lucky. What was the point in having parents the same as everyone else's? Being different was the main part of growing up. Mounting the platform, she searched the audience for her family and then smiled broadly into their eyes.

Taxi Driving In London Is Difficult

Geography Of Streets Is Hard For Newcomers To Learn

The British Legion is exerting its self to equip ex-soldiers for taxi-driving. London stands in need of at least another thousand taxis which means addition of double that number of drivers. The trouble is to teach new drivers the geography of the street. The Home Office has set a very searching one looking closely study extending over several months. Even ex-soldiers who are coming back to the work after six years with the force a course to being very rusty. On one occasion, a journalist was taken a considerable distance out of his way. He was told that the driver, he admitted he had gone all wrong and eventually suggested a substantial reduction in the fare. "Yes, not just a bit, but I'll be quite satisfied," he said. When his fare learned that he had been all through the British campaign he gave him more than the last meter recorded.

BUCKLEY'S STAINLESS WHITE RUB

"SALADA" TEA

Delicious Flavour

SELECTED RECIPES

DUMPLINGS FOR STEW

2 cups sifted flour

1 teaspoon baking powder

1 teaspoon salt

1 cup milk

Sift flour, measure, and add baking powder, and salt, and sift into bowl. Add milk and stir until all flour is dampened.

Drop from spoon on simmering stew, testing dumplings on meat or vegetables.

Cover tightly and cook gently, without removing cover, 15 to 20 minutes, depending upon size of dumplings. Makes 10 to 12 medium sized dumplings.

Parsley Dumplings. Add 1 tablespoon finely chopped parsley to flour mixture.

Curry Dumplings. Sift 1 teaspoon curry powder with flour.

Chili Dumplings. Sift 1 teaspoon chili powder with flour.

Tomato Dumplings. Substitute tomato juice for milk.

MEAL-ONE

2 1/2 cups uncooked macaroni broken in 1-inch pieces

2 tablespoons fat

6 tablespoons chopped onions

2 pounds ground beef

1 tablespoon salt

Dash of pepper

3 cups cooked or canned tomatoes

1 1/2 teaspoons chili powder, if desired

1 cup grated American cheese

Cook macaroni in large amount of boiling salted water until tender. Drain in colander. Rinse in cold water.

Melt fat in large skillet. Add onions and cook until lightly browned.

Add beef, salt, and pepper and cook until meat is browned. Add macaroni, tomatoes, and chili powder.

Turn mixture into baking dish and sprinkle cheese over top. Bake in moderate oven (350 deg. F.) 20 minutes, or until cheese is melted. Makes 8 servings.

Tea Drinkers!

Last year "Salada" announced that the sale of their packaged Tea in 1945 was at an all time high of four million pounds over their previous peak.

Today they again announced another increase in 1946 of 2,500,000 pounds over 1945.

This is an enormous sales increase and is all based on two ideas—uniform quality and careful packaging so that "Salada" reaches the user in prime condition.

Driver and can cross country by forming their bodies in compact balls.

FATHER GIVES LIFE TO SAVE SON FROM DROWNING

NEW YORK.—Police said that Edward Henning, 15, sacrificed his life to save that of his 14-year-old son after their frail kayak overturned in Little Neck Bay.

"Hang on to the boat, son, and keep kicking," were the last words that Edward Henning, Jr., heard his father say after choppy waves had overturned the single cockpit kayak.

Police said that Henning, a 200-pound man wearing a heavy sheepskin coat, then let go of the kayak and was drowned, knowing that the craft could not support both weights. Young Henning was rescued.

LIFE can Begin AFTER 40, IF.

Around 40 our energy lessens. But, experience has taught us to do our work with less effort. The years ahead should yield the greatest accomplishments, the most enjoyment and happiness. They can, too, if we avoid the kidney and bladder disorders such as Backache, Headache, Rheumatism, Pains, Lumbago, Loss of Sleep and Energy which so often attack these around 40. For over half a century Dodd's Kidney Pills have been helping men and women to keep kidneys and bladder in good order. If you are nearing 40 or past it, for the sake of your health and a happier future use Dodd's Kidney Pills today!

COLLEGE OFFERS

COURSE IN ANGLING

STATE COLLEGE, Pa.—Shades of Isaac Walton! Pennsylvania state college is offering a course in the principles and technique of angling. George Harvey, fishing expert who will conduct the course, says he believes it is the United States' first accredited course in fishing.

The 16-week course covers fly tying, fly casting and care and repair of equipment.

Universities in Prague are so overcrowded that lectures are given at night in the city's theatres.

IN MEMORIAM

In loving memory of our dear mother who passed away on March 6, 1946.

Sadly missed by her sons and daughters, Fred, George and Mary Stockel, and Ruth Lewis.

NYLONS FOR MEN!
Nylon, the stuff of toothbrushes, parachutes and feminine leg gear, is now going into the manufacture of men's socks.

Man in the latest of his periodic invasions of the feminine world hasn't won outright victory however—for the time being at least, nylon will be used only to caress the male toe and cushion the male heel.

It is said that nylon toes and heels would very measurably reduce the number of holes in a sock's lifetime. If this is true the new-type sock should be a boon to bachelors and cut the time married women spend mending.

Manufacturers haven't committed themselves on the possibility of all-nylon socks for men. Meanwhile, though, it looks as though you can toss the darnin' kit out the window, girls—well, just about.

PRINTING...

Job printing is an important part of our business, and we are ready to serve you at all times in our printing department.

We are constantly adding new job and ad type to our plant, and are thus enabled to turn out better and more modern printing.

Check over your supplies now, and if there is anything in the printing line you need, give us the order immediately, and do not wait till you are down to the last letterhead or envelope.
